Intro

Okay, let's do it.

Test

```
// include::{home}/.cache/wal/colors-wal-st.h[]
```

Lists

Unordered lists

```
* level 1
** level 2
*** level 3
***** level 4
***** level 5
* level 1

Example 1. Output

• level 2
• level 3
• level 4
• level 5
• level 5
• level 1
```

Ordered lists

```
. level 1
... level 2
... level 3
.... level 4
.... level 5
. level 1

Example 2. Output

1. level 1
a. level 2
i. level 3
A. level 4
I. level 5
2. level 1
```

TODO lists

```
- [*] checked
- [x] also checked
- [] not checked
- normal list item

Example 3. Output

checked
also checked
not checked
not checked
normal list item
```

Separating lists

```
. Apples
. Oranges
//-
. Walnuts
. Almonds
```

Example 4. Output

- 1. Apples
- 2. Oranges
- 1. Walnuts
- 2. Almonds

Definitions

Normal definition list

first term:: definition of first term
section term:: definition of second term

Example 5. Output

first term

definition of first term

section term

definition of second term

Horizontal definition list

[horizontal]

first term:: definition of first term
section term:: definition of second term

Example 6. Output

first term definition of first term

section term definition of second term

Multi-line definition list

first term::

definition of first term

section term::

definition of second term

Example 7. Output

first term

definition of first term

section term

definition of second term

Q&A

```
[qanda]
What is Asciidoctor?::
An implementation of the AsciiDoc processor in Ruby.
What is the answer to the Ultimate Question?:: 42
```

Example 8. Output

1. What is Asciidoctor?

An implementation of the AsciiDoc processor in Ruby.

2. What is the answer to the Ultimate Question?

42

Mixed

```
Operating Systems::
    Linux:::
        . Fedora
            * Desktop
        . Ubuntu
            * Desktop
            * Server
    BSD:::
        . FreeBSD
        . NetBSD
Cloud Providers::
    PaaS:::
        . OpenShift
        . CloudBees
    IaaS:::
        . Amazon EC2
        . Rackspace
```

Example 9. Output

Operating Systems

Linux

- 1. Fedora
 - Desktop
- 2. Ubuntu
 - Desktop
 - Server

BSD

- 1. FreeBSD
- 2. NetBSD

Cloud Providers

PaaS

- 1. OpenShift
- 2. CloudBees

IaaS

- 1. Amazon EC2
- 2. Rackspace

Note that the indentation is optional

Complex content in outline lists

```
* Every list item has at least one paragraph of content,
  which may be wrapped, even using a hanging indent.
Additional paragraphs or blocks are adjoined by putting
a list continuation on a line adjacent to both blocks.
list continuation:: a plus sign (`{plus}`) on a line by itself
* A literal paragraph does not require a list continuation.
 $ gem install asciidoctor
* AsciiDoc lists may contain any complex content.
[cols="2", options="header"]
|Application
Language
|AsciiDoc
IPvthon
|Asciidoctor
Ruby
|===
```

Example 10. Output

• Every list item has at least one paragraph of content, which may be wrapped, even using a hanging indent.

Additional paragraphs or blocks are adjoined by putting a list continuation on a line adjacent to both blocks.

list continuation

- a plus sign (+) on a line by itself
- A literal paragraph does not require a list continuation.

```
$ gem install asciidoctor
```

• AsciiDoc lists may contain any complex content.

Application	Language
AsciiDoc	Python
Asciidoctor	Ruby

Inline anchors

```
[[bookmark-a]]Inline anchors make arbitrary content referenceable. anchor:bookmark-b[]Use a cross reference to link to this location.
```

Example 14. Output

Inline anchors make arbitrary content referenceable.

Use a cross reference to link to this location.

Internal cross references

See <<pre><<pre>caparagraphs>>> to learn how to write paragraphs.

Learn how to organize the document into <<section-titles, sections>>.

Example 15. Output

See [paragraphs] to learn how to write paragraphs.

Learn how to organize the document into sections.

Images

[Rose] | /images/asciidoc/rose.png
Figure 1: A rose
[GitHub mascot] | http://asciidoctor.org/images/octocat.jpg
```

Admonition paragraph

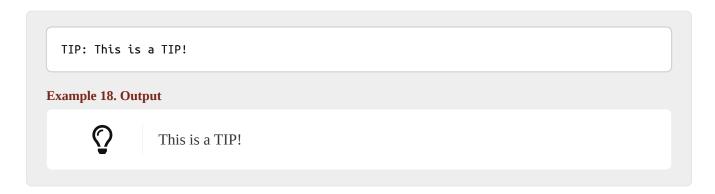

NOTE

NOTE: This is a NOTE!

Example 17. Output

This is a NOTE!

TIP

WARNING

WARNING: This is a WARNING!

Example 19. Output

This is a WARNING!

CAUTION

CAUTION: This is a CAUTION!

Example 20. Output

This is a CAUTION!

IMPORTANT

IMPORTANT: This is a IMPORTANT!

Example 21. Output

This is a IMPORTANT!

Admonition blocks

[NOTE]

This is an example of an admonition block.
Unlike an admonition paragraph, it may contain any AsciiDoc content.
The style can be any one of the admonition labels:

* NOTE
* TIP
* WARNING
* CAUTION
* IMPORTANT
====

Example 22. Output

This is an example of an admonition block. Unlike an admonition paragraph, it may contain any AsciiDoc content. The style can be any one of the admonition labels:

- NOTE
- TIP
- WARNING
- CAUTION
- IMPORTANT

Blocks

Listing block

```
This is a **_listing block_**

Example 23. Output

This is a **_listing block_**
```

Example block

```
=====
This is a **_example block_**
=====
```

```
This is a example block
```

Comment block

```
////
This is a **_comment block_**
////

Example 25. Output
```

Literal block

```
This is a **_literal block_**

Example 26. Output

This is a **_literal block_**
```

Pass block

```
++++
== This is raw text
++++

Example 27. Output

== This is raw text
```

Quote/Verse block

This is a very very simple quote

Example 28. Output

This is a very very simple quote

blockqoutes

.After landing the cloaked Klingon bird of prey in Golden Gate park: [quote,Captain James T. Kirk,Star Trek IV: The Voyage Home] Everybody remember where we parked.

Example 29. Output

After landing the cloaked Klingon bird of prey in Golden Gate park:

Everybody remember where we parked.

— Captain James T. Kirk, Star Trek IV: The Voyage Home

Sidebar block

```
.Some Title
****
This is a Sidebar block -- I have no idea why it's called `sidebar`
****
```

Example 30. Output

Some Title

This is a Sidebar block — I have no idea why it's called sidebar

Block metadata

```
.Gettysburg Address
[[gettysburg]]
[quote, Abraham Lincoln, Soldiers' National Cemetery Dedication]
```

Four score and seven years ago our fathers brought forth on this continent a new nation...

Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. ...

- - - -

Example 31. Output

Gettysburg Address

Four score and seven years ago our fathers brought forth on this continent a new nation... Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. ...
